Big Shakeup In the Police Department

UNUSUAL CASE INVOLVES THREE MEMERS OF LOCAL DEPARTMENT COMES TO LIGHT; LOOKS 'QUEER'

A secret investigation into the alleged misconduct of three members of the Richmond Police force became known last night when it was ascertained that Sergeants Phil Barry and John O. McGowan and Officer M. R. Sprague had been asked for their resignations. The news created a sensation as all three men have excellent records in the department.

The prevailing belief about town last night was that an effort was being made to make Berry the "goat," a rumor having been current for many months that Barry had been slated "to go".

So flimsy is the case against the three men, that it is not expected that the police committee which will meet tonight at a final hearing will take the matter into very serious consideration and it is very probable that all three will be vindicated.

The "investigation" started about six weeks ago, while McGowan was on his annual vacation. Prior to leaving, a letter addressed to a local police officer was received at the station. According to information at hand, McGowan sent the letter to the wife of the officer to whom it was addressed. While it is not certain, rumor is current that the letter was from a woman.

The matter was reported to the police committee and an investigation followed. Barry and Sprague, according to report, were summoned before the police committee, consisting of Councilmen Ludewig, Hartnett and Gerlach. What transpired is not known. However it is a certainty that neither of these two men were guilty of any misconduct.

Yesterday afternoon, the three men were asked for their resignations. They refused and they were then ordered to appear before the police committee at a meeting tonight. At this meeting it is probable that the matter will be dropped.

None of the three would make and statement last night. "I have done nothing wrong," said Barry, "therefor I have no fear of an investigation."

The case is a peculiar one. It has been "public property" for many months that there have been several "cliques in operation among the policemen. Several of these have, itis said, made remarks that they "would get Barry."

Whether this is true or not, the Daily News does not know. From the meagre information at hand, it seems possible that there is a move on foot to "get rid of certain members of the force." These "certain members "appear to be McGowan, Barry and Sprague.

All three have excellent records on the local police force two of them having worked their way to the rank of sergeant after years of earnest effort. Sprague has been on the force but a short time, and has always shown himself a capable and trustworthy officer.

One thing certain, the three men will be given a square deal when they appear before the council committee tonight. Councilman Ludewig has served for many years on the city council and has always given every man a square deal. Like Ludewig, Councilman Gerlach, who is a new member of the executive body, has established himself in the business and social world as a result of his fair dealings. Councilman Hartnett is an old resident of Richmond. His success in the political and business spheres have been the result of honest and upright actions.

Therefore the people of Richmond who desire to see justice will find that the three membersof the force accused of a "misconduct" which is really a comedy, vindicated of the attempt of some unscrupulous "thing" to railroad them off the force.

Letter Sums Up Local Union Situation As It Really Is: "Aliens" Get the Work

The Daily News this morning prints a letter received yesterday. The article, while it may be construed as rather "radical" by some, sums up the local situation. It follows:

Editor Daily News. —

Dear Sir:—

I was agreeably surprised to read the article in the last issue of your paper relative to the disposition on the part of the street contractors to put through the work for which the city has contracted with them, with under paid and over worked men, and in the event of not being able to bring the union men of the city to their terms to employ aliens and strike breakers.

The article is well written and to the point as far as it goes. The primary cause for these conditions among the local contractors did not spring from the hearts of these Richmond men themselves but from the force of necessity occasioned by the presence in our city of large alien contractors who import their labor from the surrounding cities at whatever wage they see fit to pay and what-ever hours they care to exact.

There has been more street improvement done in the city of Richmond in the past 12 months than in any such period of time since its incorporation and all of this work with the exception of a few blocks in scattered sections has been awarded to these large contractors with the reputation of being unfair to the interesth of labor and especially so to that of Richmond who are forced to pay the bill, while those who do the work take their paltry wage and hie away to their home town and spend it, and incidentally the merchants of Richmond wonder why the working men and those who do not work do not patronize them, some thing is radically wrong and let us see if we cannot find it.

About three years ago the laboring people of Richmond thought they had the rat in a hole and circulated a petition calling for the matter to be placed on the ballot at the coming election, which would have provided that all men employed on any municipal improvements and works should be bonified residents of the city of Richmond. What happened? One of the contractors with a reputation both in Richmond and the other bay cities, who was opperating here at thetime, at the instigation of one of two of our (honored?) citizens, went to the County Seat and procured, with much delay an injunction restraining the city clerk from placing the matter on the ballot. It was killed, Ignomonously crucified but so important however was the corpse that it was laid in state for a period of two years in one of the niches of our judicial morgue. The consequence was that since that time the percentage of the work done by the taxpayers and residents of Richmond has continuously grown less and less.

There is a law in the State of California that on all work done for and by the state and all subdivisions thereof eight hours shall constitute a days work and is effective in nearly every city and town within its boundaries except Richmond. Here the work is not done by the city,

Here the adjacent property owners are compelled to petition the city to have their street improved, and after due consideration on the part of the city fathers as to whether the children should have the plumb, the prayer is granted or rejected as they see fit.

If it is granted the city council proceeds to draw plans and specifications for the improvement and award the contract to some big responsible contractor outside of Richmond because he happens to be the lowest bidder. This is all done mind you for the poor irresponsible property holder.

When the work is completed, or supposedly so, the city dads accept the work (for the people) and insure the payment of their pro rata by placing a lein on their property, to be paid off in nice easy installments along with the next few yearly taxes.

So you see it really is not municipal improvement but private enterprise and the eight hour law does not apply, and these big responsible contractors can bring their men from outside the city and compell them to do things which they would not do at home lest they be accused of robbing their neighbors, and be ashamed.

There are but two alternatives for the local contractors, oneis to resort to the same tactics and conditions employed by the outside contractors and successfully compete with them. The other is to grab a shovel and go to work for these leaches at two dollars a day and nine hours, today and $1.50 and ten hours tomorrow.

Is there no way to keep our work and our money at HOME?

LET US PATRONIZE HOME INDUSTRY BE OUR SLOGAN, BUT LET IT REACH EVERY ARTERY OF OUR MUNICIPAL BEING, and there will be no occasion for strikes, boycotts and lockouts or strife and discord for there will be enough and to spare for all. R. S. W.

LUDEWIG REAL REPRESENTATIVE OF PEOPLE

When the people of the city of Richmond elected Mr. Otto Ludewig to the honored position of City Councilman, they selected a man who is devoted to his city and to the Principals of labor. Never has there a matter come before the city council of Richmond without Mr. Ludewig championing the cause of labor. He has on more than one occasion been ridiculed for lining up with the labor unions. The Big interests have attempted to force him to think their way. But through it all Mr. Ludewig has stood a man. The people of Richmond are to be congratulated in having Mr. Ludewig a member of their representative body. He stood for labor unions and his actions in regard to the Word case have demonstrated that he is with them and continue to represent them.

A FEW FACTS

The Daily News has no desire to boast. But for the benefit of several doubters we desire to present some facts. Yesterday's issues of both evening newspapers CARRIED LESS THAN TEN NEW LOCAL "STORIES." Of the other news items, every single one had appeared in the columns of the Daily News yesterday morning. The aily ews inNvites its readers to compare the columns of the Richmond newspapers. If it is local news, it will be found FIRST in the Daily News.

"CAUSE IS NEEDED"

The case of Mr. John Word, a contractor of this city, unfair to union labor, comes at a very propitious moment. For years, the Labor Unions of Richmond have fought to have inserted in the city's law a clause, demanding that ALL CONTRACTORS MUST AGREE TO HIRE RICHMOND UNION LABOR MEN IN TAKING CONTRACTS FOR RICHMOND IMPROVEMENTS, providing of course the various positions came under the union rules.

It has been anuphillfight. Many were bubious as to the logical side of such a clause. But the Word case has convinced the people of the real facts. It is meaning a loss of several hundred dollars a day in pay for Richmond residents, who by the way are paying for this job. Naturally this means that the merchantes of Richmond are daily losing many dollars for money earned by Richmond citizens is spent in Richmond. Many earned by "alien persons" who come to Richmond to do work in the morning and return at the completion of the day to their homes OUTSIDE OF RICHMOND is therefore not spent in Richmond.

Many of the contractors have acted as gentlemen. Were these gentlemen to get all of the contracts there would be no necessity of an ordinance, as suggested above. But with the Municipal Improvement Co. and John Word in the field, this is necessary and the sooner the people of Richmond realize just that much sooner will Richmond assume a more prosperous appearance.

It is a matter of fact that more street work has been done in Richmond during the past twelve months than in any other similar period BUT IN THAT TIME THE NUMBER OF LOCAL MEN EMPLOYED WAS CONSIDERABLY LESS THAN IN OTHER PERIOD.

OF INTEREST TO MUSIC LOVERS

THE ART OF COMPOSITION

By Prof. Harold E. Smith

Can composition actually be taught? This is a question that has long baffled the most eminent aspirants of success in the musical world.

For many years the art of composition was supposed to have been mostly talent, and inspiration and perhaps for the most part it was. Certainly, it is far from reasonable to believe that talent and inspiration can be taught.

This is a belief that has been maintained in the past but hah been mercilessly shattered by modern composers.

They believe that there is a science even to talent and inspiration and therefore undertake to teach the science.

They have even been so bold as to declare that the art of composition can be successfully taught. Of ccurse they also admit that talent and inspiration prove to be great blessings where ever they are bestowed. And as their science advances, both increase in value.

Then now, let us open the music books of the world and proceed to add another page.

Science is just another word for system, it also means knowledge. Then our first step is toward some system by which we shall be enabled to invent small fragments of thought, and develop them into beautiful little parts called motives.

Some people aren't particular about their clothing but others are. If you are particular, if you wish to look RIGHT see Schumaher, the Tailor, 331 Sixth street—He makes them CORRECT. He also does cleaning and pressing.
